

SWEET FOR ME

music: Miks Dukurs / Kārlis Indrišonoks

lyrics: Miks Dukurs / Laura Dukure / Georgij Girbu

everyone has their bright side
everyone has some dust inside
everyone has their shinny side
everyone has lil' devil inside

you wanted to show how you shine like a star
and you wanted to show how you burn like hell
i wanna believe that everyone
will accept you as you are

**cause you are so
you are so
i know you are so
sweet for me**

everyone has their burden to carry
and still they can kick up a dust
everyone can be sweet for a while
and you should be for most of the time

you wanted to show how you shine like a star
and wanted to show how you burn like a hell
stop showing something all the time
it's not that who you are

just keep your head up no matter what they say
for every dark night there is a brighter day
believe me you are special like everyone of us
we are the future and we're reaching for the stars

it's not about where you from or where you at
so let's just celebrate my friends the time is right
reality brings you down but music picks you from the ground
now put your hands together my sisters and my brothers
