

I'VE BEEN WAITING FOR YOU

by M.Dukurs

i've been waiting
my whole life for you

and here you are in my life

every time i see you smile
it makes my heart beat fast
I swear, i'll do anything
to have you in my life

right here by my side
right here by my side forever

**i've been waiting my whole life for you
and here you are in my life
even if i close my eyes
i can still see you right here by my side
i've been waiting my whole life for you
and here you are in my life
I wanna see you baby, stayin' by my side
forever and ever**

when we're together the sky
is changing from grey to blue
just put your hand in mine and feel the love
let's share our story with the rest of the world
cause everyone should know that love is the real thing
